

Waste Management Solutions

Danox Environmental is a registered DEA Reverse Distributor and an experienced provider of hazardous and non-hazardous waste services. Our registration allows us to support transfer and destruction of controlled substances (Schedule I-V) and listed chemicals (LC). Danox also provides cost effective over-the-counter (OTC) pharmaceutical waste services for mixed DEA and RCRA regulated waste.

Danox team members are experts in developing flexible, site specific and cost-effective solutions. Our group works closely with clients, vendors and DEA regional offices to implement long-term, regulatory compliant and secure solutions from the loading dock through final destruction.

Why Choose Danox?

- Danox takes possession of DEA controlled substances at your dock; your DEA controlled substances become our responsibility.
- Provides cost-competitive solutions; on time and within cost estimate
- Dedicated teams manage your account
- In-transit security and brand protection are priorities
- High level of insurance
- Indemnification
- Site-specific plans to meet your company's unique requirements
- Comprehensive witnessed destruction services; we mobilize representatives anywhere in the country to witness loading, transport and destruction.
- Turnkey inventory management; we verify NDCs, reporting quantities and pre-printed transfer forms (DEA-222s and Controlled Waste Forms).
- Utilizes trusted carriers and facilities which are vetted with stringent security agreements and audits
- Capable of emergency deployment
